| Tions (1033) trom in coment properties are   |                |                |

(c) The Company's investment properties consist of 1/5th (one-fifth) undivided share in a Freehold Land and Land improvement (being boundary wall) in India.

(d) Fair Value:

March 31, 2022 33,083.00

March 31, 2021 32,146.00

# Fair value hierarchy and valuation technique

The fair value of investment property, being Freehold land, has been determined by external, accredited independent property valuers namely United Surveyors and Valuers, having appropriate recognized professional qualification and recent experience in the location and category of the property being valued. The fair value measurement has been categorised as Level 2. Fair value has been arrived at by using Sale Comparison Market Approach Method.

(e) The Company has no restrictions on the realisability of its investment property and no contractual obligations to purchase, construct or develop investment property or for repairs, maintenance and enhancements.

# (f) Reconciliation of fair value :

| Reconciliation of fair value:         | Freehold Land                     | Total      |

b. Term and rights attached to shares:
The Company has only one class of equity shares having a par value of Rs. 10 each per share. Each shareholder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend proposed by the board of directors if any, is subject to approval of the shareholders in the ensuing annual general meeting. In the event of liquidation of the Company, the holders of the equity shares will be entitled to receive the remaining assets of the Company, after distribution of all preferential amounts. The distribution will be proportion to the number of equity shares held by the shareholders.

11 Financial instruments, financial risks and capital risks management policies and objectives

I Financial Instruments - Accounting classification, fair values and fair value hicrarchy:

The category wise details as to the earrying value and fair value of the Company's financial assets and financial liabilities including their levels in the fair value hierarchy are as follows:

|   | 1       | Carrying         | values as of |                  | ues as of        |
|---|---------|------------------|--------------|------------------|------------------|
| Particulars   | Levels  | 31st March, 2022 |              | 31st March, 2022 | 31st March, 2021 |
| 1. Financial assets<br>a. Fair Value through profit & loss<br>b. Fair value through other |         |                  |              | -                |                  |
| comprehensive income  |         |                  | -            | -                |                  |
| c. Amortised cost<br>Cash & cash equivalents  | Level 1 | 107.00           | 148.00       | 107.00           | 148.00           |
| Other financial assets  | Level 2 | 2.00             | N 23554      | 2.00             | -                |
| 2. Financial liabilities<br>a. Fair Value through profit & loss                           |         | -                |              | 1.1              | 1, 1, .          |
| b. Fair value through other<br>comprehensive income                                       | -       | -                |              | -                |                  |
| c. Amortised cost Other financial liabilities   | Level 2 | 810.00           | 806.00       | 810.00           | 806.0            |

Methods and assumptions used to estimate the fair values are consistent with those used for the year ended 31st March, 2022 The following methods / assumptions were used to estimate the fair values:

1. The carrying value of Cash and cash equivalents and financial liabilities approximate their fair value mainly due to the short-term maturities of these instruments.

2. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. There were no transfers between Level 1 and Level 2 during the year.

#### II Financial Risk Management Objectives and Policies

According to Ind As 107- Financial Instruments: Disclosures, an entity shall disclose information that enables users of its financial statements to evaluate the nature and extent of risks

arising from financial instruments to which the entity is exposed at the end of the reporting period. These risks typically include credit risk, liquidity risk and market risk.

The Company's principal financial liabilities comprise other payables. The Company's principal financial assets include loans and cash and eash equivalents. The Company's activities do not posess any significant financial risk as detailed below

a.) CPCHILIMAN
The Company takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. With respect to credit risk arising from financial assets which comprise of eash and eash equivalents, the Company's exposure arises from the default of the counterparty, with a maximum exposure equal to the earrying amount of these financial assets at the reporting date. The Company manages credit risk by banking with good/reputed bank.

The table below provides details regarding the contractual maturities of financial assets based on contractual undiscounted receivable.

| Particulars                                      | Carrying amount | Due within one<br>year | Due after one year | Total contracted<br>cash flows |
|--|-----------------|------------------------|--------------------|--------------------------------|

| Total Financial Assets                           |                 |                        |                    |                                |

#### b) Liquidity Risk

Liquidity risk is the risk that the Company is unable to meet its payment obligations associated with its financial liabilities when they fall due. Prudent liquidity risk management implies maintaining sufficient liquid funds to meet its financial obligations.

The Company manages liquidity risk by maintaining adequate eash reserves to meet its obligations as they fall due and through financing from related parties.

The table below provides details regarding the contractual maturities of financial liabilities based on contractual undiscounted payments.

| Particulars   | Carrying amount | Due within one year    | Due after one year | Total contracted<br>cash flows |
|---|-----------------|------------------------|--------------------|--------------------------------|
| As at 31st March, 2022<br>Other financial liabilities | 810.00          | 810,00                 | -                  | 810.00                         |
| Total Financial Liabilities                           |                 |                        |                    | -                              |
| Particulars   | Carrying amount | Due within one<br>year | Due after one year | Total contracted<br>cash flows |

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial

instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. ES\*SIA

Foreign exchange risk is the risk that the fair value of future eash flows of financial instrument will fluctuate because of changes in foreign exchange rate. The Company has no exposure to foreign exchange risk as it does not have any financial assets or liabilities which are denominated in a currency other than INR.

Interest rate risk arises from the possibility that changes in interest rates will affect future eash flows or the fair values of financial instruments. The Company has no exposure to interest rate risk as it has no "interest-bearing financial assets and liabilities".

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market. The Company has no exposure to price risk.

#### III Capital Risk Management Policies and Objectives

For the purpose of the Company's capital management, capital includes issued equity capital, and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value. The Company manages its capital structure in consideration to the changes in economic conditions and the

requirements of the financial covenants.

During the reporting period Company has not obtained any loans from external financial institutions or from any of its related entities. Hence, company is not subject to any financial

#### IV Changes in liabilities arising from financing activities

With effect from 01.04.2017, the Company adopted the amendments to Ind AS 7 - Statement of eash flows. The amendments require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from eash flows and non-eash changes. To the extent necessary to satisfy this requirement, an entity discloses the following changes in liabilities arising from financing activities:

- Changes from financing cash flows

Changes arising from obtaining or losing control of subsidiaries or other businesses

The effect of changes in foreign exchange rates

Changes in fair values

Paragraph 44C of Ind AS 7 states that liabilities arising from financing activities are liabilities for which eash flows were, or future cash flows will be, classified in the statement of cash Fungrouph 37 COLING AS A States and national countries are made in the statement of cash flows were, or future cash nows will be, classified in the statement of cash flows as cash flows from financing activities. In addition, the disclosure requirement in paragraph 44A also applies to changes in financial assets (for example, assets that hedge liabilities arising from financing activities) if cash flows from those financial assets were, or future cash flows will be, included in cash flows from financing activities.

The Company disclosed information about its interest-bearing loans and borrowings including its obligations under finance lease and hire purchase contracts. In addition, the Company included information on certain derivatives as their settlement will affect financing eash flows.

The amendments suggest that the disclosure requirement may be met by providing a reconciliation between the opening and closing balances in the statement of financial position for liabilities arising from financing activities. Where an entity discloses such a reconciliation, it shall provide sufficient information to enable users of the financial statements to link items included in the reconciliation to the statement of financial position and the statement of cash flows. The Company decided to provide information in a reconciliation format. The major changes in the Company's liabilities arising from financing activities are due to financing cash flows and accrual of financial liabilities. The Company did not acquire any liabilities arising from financing activities during business combinations effected in the current period or comparative period.
