11 Financial instruments, financial risks and capital risks management policies and objectives

I Financial Instruments - Accounting classification, fair values and fair value hierarchy :

The category wise details as to the carrying value and fair value of the Company's financial assets and financial liabilities including their levels in the fair value hierarchy are as follows.

Particulars	Levels	Carrying values as of		Fair values as of	
		31st March, 2023	31st March, 2022	31st March, 2023	31st March, 2022
1. Financial assets					
a. Fair Value through profit & loss		-	-	-	-
b. Fair value through other comprehensive income		-	-	-	-
c. Amortised cost					
Cash & cash equivalents	Level 1	69.00	107.00	69.00	107.00
Other financial assets	Level 2	2.00	2.00	2.00	2.00
2. Financial liabilities					
a. Fair Value through profit & loss		-	-	-	-
b. Fair value through other comprehensive income		-	-	-	-
c. Amortised cost					
Other financial liabilities	Level 2	825.00	810.00	825.00	810.00

Methods and assumptions used to estimate the fair values are consistent with those used for the year ended 31st March, 2023. The following methods / assumptions were used to estimate the fair values:

1. The carrying value of Cash and cash equivalents and financial liabilities approximate their fair value mainly due to the short-term maturities of these instruments.
2. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. There were no transfers between Level 1 and Level 2 during the year.

II Financial Risk Management Objectives and Policies

According to Ind AS 107 - Financial Instruments: Disclosures, an entity shall disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period. These risks typically include credit risk, liquidity risk and market risk.

The Company's principal financial liabilities comprise other payables. The Company's principal financial assets include loans and cash and cash equivalents. The Company's activities do not possess any significant financial risk as detailed below.

a.) Credit Risk

The Company takes an exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. With respect to credit risk arising from financial assets which comprise of cash and cash equivalents, the Company's exposure arises from the default of the counterparty, with a maximum exposure equal to the carrying amount of these financial assets at the reporting date. The Company manages credit risk by banking with good/reputed bank.

The table below provides details regarding the contractual maturities of financial assets based on contractual undiscounted receivable.

Particulars	Carrying amount	Due within one year	Due after one year	Total contracted cash flows
As at 31st March, 2023				
Other financial assets	2.00	2.00	-	2.00
Total Financial Assets				
As at 31st March, 2022				
Other financial assets	2.00	2.00	-	2.00
Total Financial Assets				

b.) Liquidity Risk

Liquidity risk is the risk that the Company is unable to meet its payment obligations associated with its financial liabilities when they fall due. Prudent liquidity risk management implies maintaining sufficient liquid funds to meet its financial obligations.

The Company manages liquidity risk by maintaining adequate cash reserves to meet its obligations as they fall due and through financing from related parties.

The table below provides details regarding the contractual maturities of financial liabilities based on contractual undiscounted payments.

Particulars	Carrying amount	Due within one year	Due after one year	Total contracted cash flows
As at 31st March, 2023				
Other financial liabilities	825.00	825.00	-	825.00
Total Financial Liabilities				
As at 31st March, 2022				
Other financial liabilities	810.00	810.00	-	810.00
Total Financial Liabilities				

[Handwritten signature]

c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

i.) Currency risk

Foreign exchange risk is the risk that the fair value of future cash flows of financial instrument will fluctuate because of changes in foreign exchange rate. The Company has no exposure to foreign exchange risk as it does not have any financial assets or liabilities which are denominated in a currency other than INR.

ii.) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Company has no exposure to interest-rate risk as it has no "interest-bearing financial assets and liabilities".

iii.) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer or by factors affecting all similar financial instruments traded in the market. The Company has no exposure to price risk.

III. Capital Risk Management Policies and Objectives

For the purpose of the Company's capital management, capital includes issued equity capital, and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value. The Company manages its capital structure in consideration to the changes in economic conditions and the requirements of the financial covenants.

During the reporting period Company has not obtained any loans from external financial institutions or from any of its related entities. Hence, company is not subject to any financial covenants.

IV. Changes in liabilities arising from financing activities

With effect from 01.04.2017, the Company adopted the amendments to Ind AS 7 - Statement of cash flows. The amendments require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. To the extent necessary to satisfy this requirement, an entity discloses the following changes in liabilities arising from financing activities:

- Changes from financing cash flows
- Changes arising from obtaining or losing control of subsidiaries or other businesses
- The effect of changes in foreign exchange rates
- Changes in fair values
- Other changes

Paragraph 44C of Ind AS 7 states that liabilities arising from financing activities are liabilities for which cash flows were, or future cash flows will be, classified in the statement of cash flows as cash flows from financing activities. In addition, the disclosure requirement in paragraph 44A also applies to changes in financial assets (for example, assets that hedge liabilities arising from financing activities) if cash flows from those financial assets were, or future cash flows will be, included in cash flows from financing activities.

The Company disclosed information about its interest-bearing loans and borrowings including its obligations under finance lease and hire purchase contracts. In addition, the Company included information on certain derivatives as their settlement will affect financing cash flows.

The amendments suggest that the disclosure requirement may be met by providing a reconciliation between the opening and closing balances in the statement of financial position for liabilities arising from financing activities. Where an entity discloses such a reconciliation, it shall provide sufficient information to enable users of the financial statements to link items included in the reconciliation to the statement of financial position and the statement of cash flows. The Company decided to provide information in a reconciliation format. The major changes in the Company's liabilities arising from financing activities are due to financing cash flows and accrual of financial liabilities. The Company did not acquire any liabilities arising from financing activities during business combinations effected in the current period or comparative period.

	01.04.2022 (opening balance of current year)	Cash Flows	Non-cash changes				31.03.2023 (closing balance of current year)
			Arising from obtaining or losing control of subsidiaries or other businesses	Foreign exchange movement	Fair value changes	Others	
Interest bearing loans and borrowings							
Total liabilities from financing activities	-	-	-	-	-	-	-

	01.04.2021 (opening balance of current year)	Cash Flows	Non-cash changes				31.03.2022 (closing balance of current year)
			Arising from obtaining or losing control of subsidiaries or other businesses	Foreign exchange movement	Fair value changes	Others	
Interest bearing loans and borrowings							
Total liabilities from financing activities	-	-	-	-	-	-	-

The 'Other' column includes the effect of reclassification of non-current portion of interest-bearing loans and borrowings, including obligations under finance leases and hire purchase contracts to current due to the passage of time; and the effect of accrued but not yet paid interest on interest bearing loans and borrowings.

12. Income Tax

Components of tax expense (income) recognised in profit or loss include:

Current tax expense:

Deferred tax (income)/expense:

Income tax expense reported in the statement of profit or loss

-	-
-	-
-	-

The calculation of current tax is based on a combined tax rate of 26% (31.03.2022: 26%), consisting of a corporate tax rate of 25% (31.03.2022: 25%) and a cess thereon of 4% (31.03.2022: 4%). For Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled.

Reconciliation of tax expense

The reconciliation between tax expense and product of net income before tax multiplied by enacted tax rates in India is summarised below:

	<u>31.03.2023</u>	<u>31.03.2022</u>
Net Income/(loss) before tax	(92.00)	(85.00)
Enacted tax rates in India	26.00%	26.00%
Computed Tax expense using company's domestic tax rate	(24.00)	(22.00)
Tax effect on Non-deductible tax expenses	24.00	22.00
Total income tax expense	-	-

Components of tax expense (income) recognised in statement of OCI:

Deferred tax balance in the statements of financial position

	<u>As at</u> <u>31.03.2023</u>	<u>As at</u> <u>31.03.2022</u>
<u>Deferred tax assets:</u>	-	-
<u>Deferred tax liabilities:</u>	-	-
Net deferred tax asset/(liabilities)	-	-

The Company did not have any tax losses carryforwards, unabsorbed tax depreciation carryforwards or any other item giving rise to any deferred tax assets or liabilities.
